

Salary Schedules and Placement Information

Administrative, Professional and Technical (APT) positions utilize a broadband classification system. Positions are assigned to a career group (i.e., a group of positions with functional commonalities) and pay band (i.e., designated by A, B, C, or D) based on the level of complexity and scope of responsibilities. Associated with each pay band are multiple pay steps.

Please refer to the current [APT broadband salary schedule](#).

Salary assignment will be commensurate with relevant training, education, experience, other qualifications, and subject to availability of funds and program needs.

Additional information can be found in the [Administrative Procedure A9.210, Classification and Compensation Plan for APT Personnel](#).
